RE: North Bronson Industrial Area Site

Dear Bill:

The U.S. Environmental Protection Agency (U.S. EPA) has received the *Conceptual Model for Development of Remedial Action Objectives* dated December 22, 1995 and prepared by Environmental Standards, Inc., for the North Bronson Industrial Area Site.

The document has been provided to our Technical Support Section (TSS) for review by a Toxicologist, and their comments will be available by January 26, 1996. I have reviewed the document and had no comments except for one question: If methodology in this conceptual model is acceptable, when is the RAO Report expected? How will this fit in to the project's schedule?

I understand you will be meeting with Jeff Crum this week to discuss the document. I will send any additional comments once TSS has provided their review comments to me.

Please call if you have any questions or wish to discuss further.

Sincerely,

*R. Clarke-Moreno*

Rosita Clarke-Moreno
